

CPhA's Compendium of Therapeutic Choices (CTC) and Compendium of Therapeutics for Minor Ailments (CTMA)

Product overview

For a limited time, CMA members have full access to the [Compendium of Therapeutic Choices](#) (CTC) & [Compendium of Therapeutics for Minor Ailments](#) (CTMA).

CTC is the trusted reference for Canada's health care providers, guiding clinical decision making at the point of care by providing **unbiased, evidence-based, practical information** on hundreds of medical conditions. Over two hundred common medical conditions are referenced and organized in a concise format by therapeutic condition such as, Lyme disease or heart failure. The content is based on the best available evidence, subject to a rigorous peer-review process.

CTMA presents the best-available evidence to help you manage and triage minor ailments, covering the full spectrum of therapy for over 140 conditions, for example fever and conjunctivitis.

Questions? Contact our Member Service Centre at memberservicecentre@cma.ca or 1-844-748-8017.

Highlights

- Fully integrated into CPS online and RxTx mobile app allowing for a seamless search
- CTC is updated weekly while CTMA is reviewed and updated regularly
- CTMA includes suggested resources and plain-language handouts for patients
- Online version includes Lexi-Interact – LexiComp's drug interaction analyzer
- Available in English and French

How do I access CTC and CTMA?
